STATEMENT FROM MR. CHEE

This apartment belongs to me. As I am the only one staying in
the apartment ever since my wife had passed on, I had rented out the
spare room to Sarah (the Victim). She has been my tenant for the 8
months. I have seen Sarah's boyfriend a few times; whenever he fetches
Sarah back. I don't usually communicate much with Sarah unless it
involves the house because I work late nights and she usually goes out
in the day.
